WORK EXPERIENCE

Senior Web Developer — 2025 - Present

HEPTA7 TECHNOLOGIES LLP

- Architecting high-frequency **Trading Bots** (Grid, DCA, Arbitrage).
- Leading API integrations for **Binance, Bybit, and MT5** via WebSockets.
- Designing secure **DeFi Crypto Wallets** and microservices.
- Optimizing Node.js clusters for sub-millisecond, low-latency execution.

Web Developer — 2021 - 2025

WeAlwin Technologies

- Built scalable fintech apps using **React, Node.js, and MongoDB**.
- Integrated secure payment gateways and RESTful trading APIs.
- Optimized frontend performance and complex state management.
- Automated deployment pipelines using **Docker, Nginx, and PM2**.
